

Social Responsibility for Mineral Sourcing

Conflict Minerals-Free Initiatives

The use of 3TG minerals (Gold, Tin, Tantalum, Tungsten) sourced from the Democratic Republic of the Congo and neighboring countries as conflict funds for armed groups is a significant concern. In response, the United States government enacted the Dodd-Frank Act, requiring listed companies to disclose their use of conflict minerals. At Magnescale Corporation, we are committed to not using minerals that pose risks such as human rights violations. To fulfill our social responsibility, we are actively working to eliminate the use of conflict minerals in collaboration with our suppliers and partner companies. Since 2022, we have also been surveying our suppliers of Cobalt and Mica.

We sincerely request your cooperation in investigating and responding to our inquiries.
